

Riley E. Hinson, Ph.D.
Associate Professor
Department of Psychology
University of Western Ontario
London, Ontario
N6A 5C2
Phone: 519-661-2111 ext 84649
email: hinson@uwo.ca

Educational History

1980, Ph.D., Department of Psychology, McMaster University, Hamilton, Ontario

1973, BSc., Industrial Relations, University of North Carolina at Chapel Hill, Chapel Hill, North Carolina

1973, B.A., Psychology, University of North Carolina at Chapel Hill, Chapel Hill, North Carolina

Employment History

1981-present, Department of Psychology, University of Western Ontario, London, Canada

1979-1981, Research Scientist, Addiction Research Foundation (now CAMH), Toronto, Canada

1978-1979, Instructor, Office of Continuing Education, Wilfrid Laurier University, Waterloo, Canada

Teaching Experience

Undergraduate

Research Design, Methods and Statistical Analysis
Drugs and Behavior
Animal Learning and Cognition

Graduate

Animal Learning and Cognition
Addictions

Research Grants

Canadian Institutes of Health Research, New Emerging Team (Net): “Violence, Gender and Health: The Impact of Child Maltreatment on Adolescent and Adult Health Outcomes” (collaborating researcher on research team headed by Wekerle, C., Faculty of Education and Departments of Psychiatry and Psychology, University of Western Ontario)- \$1.29 million awarded in 2003 to cover a period of five years.

Agnes Cole Dark Fund: “Cognitive Processes Underlying the Automatic Nature of Smoking”- \$2,500 awarded in 2008 to cover a period of one year.

Alcoholic Beverage Medical Research Foundation: “Alcohol Outcome Expectancies, Memory Accessibility, and Situational Variation in College Student Drinking Behavior” (with A.M. Wall, Department of Psychology, York Univeristy, & S.A. McKee, Department of Psychiatry, Yale Univeristy)-\$120, 000 awarded in 2001 to cover a period of three years.

UWO Foundation Western: “Alcohol, gambling and liquid courage”-\$3, 000 awarded in 2000 to cover a period of one year.

Rothman, Benson and Hedges: “Cognitive processes in smoking behavior”-\$7, 000 awarded in 2000 to fund construction of smoking research laboratory.

Rothman, Benson and Hedges: “Automatic and controlled processing in smoking behavior”- \$5,800 awarded May, 1999 to cover a period of one year.

Addiction Research Foundation of Ontario: “Familial transmission of alcohol outcome expectancies”(with S.A. McKee, Department of Psychology, University of Western Ontario, and C. Wild, Addiction Research Foundation of Ontario)-\$4, 400 awarded in 1997 to cover a period of one year.

Dean’s Grant, University of Western Ontario: “Observational learning in chickadees”-\$250 awarded in 1995 to cover a period of one year.

Dean’s Grant, University of Western Ontario: “Effects of scopolamine on chunking in memory”- \$250 awarded in 1994 to cover a period of one year.

Dean’s Grant, University of Western Ontario: “Inhibitory conditioning in place conditioning”- \$250 awarded in 1993 to cover a period of one year.

Natural Sciences and Engineering Research Council of Canada: “Effects of preexposure and postextinction exposure on place conditioning”-\$48,000 awarded in 1992 to cover a period of four years.

Dean’s Grant, University of Western Ontario: “Context and UCS preexposure in place conditioning”-\$300 awarded in 1991 to cover a period of one year.

Natural Sciences and Engineering Research Council of Canada: “Place conditioning with amphetamine”-\$45, 000 awarded in 1989 to cover a period of three years.

Dean’s Grant, University of Western Ontario: “Reinstatement of place conditioning”-\$300 awarded in 1989 to cover a period of one year.

Natural Sciences and Engineering Research Council of Canada: “Place conditioning with

- amphetamine”-\$14, 000 awarded in 1988 to cover a period of one year.
- Dean’s Grant, University of Western Ontario: “Place conditioning with morphine”-\$300 awarded in 1988 to cover a period of one year.
- Dean’s Grant, University of Western Ontario: “Priming and place preference conditioning”-\$350 awarded in 1986 to cover a period of one year.
- Natural Sciences and Engineering Research Council of Canada: “Priming and place preference conditioning”-\$45, 729 awarded in 1985 to cover a period of three years.
- Dean’s Grant, University of Western Ontario: “Behavioral effects of haloperidol in amphetamine-experienced rats”-\$350 awarded in 1985 to cover a period of one year.
- Dean’s Grant, University of Western Ontario: “The effect of priming drug injections on place preference conditioning”-\$1, 475 awarded in 1984 to cover a period of one year.
- Dean’s Grant, University of Western Ontario: “Place preference conditioning with drugs of abuse”-\$925 awarded in 1983 to cover a period of one year.
- Natural Sciences and Engineering Research Council of Canada: “Pavlovian inhibitory conditioning with pharmacological UCSs”-\$34, 903 awarded in 1982 to cover a period of three years.
- Dean’s Grant, University of Western Ontario: “Pavlovian control of tolerance to antipsychotic medication”-\$450 awarded in 1982 to cover a period of one year.
- Dean’s Grant, University of Western Ontario: “Neurochemical and behavioral concomitants of behaviorally-augmented tolerance”-\$600 awarded in 1982 to cover a period of one year.
- Dean’s Grant, University of Western Ontario: “Inhibitory conditioning in drug effects”-\$750 awarded in 1981 to cover a period of one year.
